Our Facials

Combining therapist-led techniques and Bamford's results-driven skincare range, our facials harness the science of nature using the finest natural and organic ingredients to promote healthy, nourished and glowing skin.

The Bamford Facial is designed to brighten and balance the skin, including facial reflexology techniques and a hot/cold stone massage to stimulate cell regeneration and to release tension. Your therapist will create a facial tailored to your skin's needs using a personalised selection of Bamford skincare products.

The Valmont facial applies the ancient tradition of hydraulic control to the skin during this facial, plumping the epidermis with water to reveal vibrant, supple, re-plumped skin smoothing the wrinkles that result from dehydration. A slow, delicate, and singularly relaxing massage serum propels its mixture of triple DNA, hyaluronic acid and moisturizing ingredients deep into the skin. An essential treatment that will leave skin as fresh as the morning dew.
